SFU STEM Speakers Series – Control for Safe Robot Navigation

The Science, Technology, Engineering, and Mathematics (STEM) Speaker Series provides secondary school students with the opportunity to meet and interact with university students, faculty members, and/or working professionals in STEM fields. The January session speaker is Minh Bui, a third year PhD student with research interests in control theory, robotics, and machine learning. He obtained his master's degree from SFU and his bachelor's degree in electrical engineering from UBC. In this talk, Minh Bui will explore the principles of safe control algorithms within the context of robot navigation. These algorithms ensure that robots can operate autonomously while avoiding obstacles and adhering to safety constraints. I will discuss my past and current work in this area with applications in robotic systems. You can join the virtual session on **January 25** from 1:00 – 2:00pm on Zoom. To register go to: <https://sciencealive.ca/stem-speaker-seriesz>

Sending Sunshine

Sending Sunshine is a volunteer-driven initiative aimed at spreading positivity and love to our senior community through **making them handwritten cards and messages**. Our main goal is to be able to involve more youth in this organization and make a significant impact on the lives of seniors in our community as it is a very easy and casual volunteering opportunity for those who might not have the time to attend weekly meetings or make a commitment. Students who want to be a part of the "club" can sign up, and then make cards at home with their own supplies whenever they might have free time. Once they make a card(s), they give them to us and we (the Chapter leaders) will mail them over to the headquarters back in Ontario. After that, volunteers will receive their volunteer hours. **For more information go to** : Sending Sunshine: <https://www.sendingsunshine.ca/chapters>
